REQUEST TO CORRECT INVENTORSHIP UNDER 37 C.F.R. § 1.324

Attention: OFFICE OF PETITIONS
Commissioner for Patents
P.O. Box 1450
Alexandria, VA. 22313

Sir:

Due to an error, inventor James A. Levine is not currently named as an inventor in the above-identified patent. Applicant previously filed (on 10 September 2002) a Request to Correct Inventorship under 37 C.F.R. § 1.48(a) during prosecution of the above-identified patent (i.e., issuing from U.S. Serial No. 09/776,470). A copy of the Request is attached. Although this Request should have been considered during the prosecution of the application, for some reason, the patent issued without consideration thereof. As such, a request under 37 C.F.R. § 1.324 is submitted herewith to change the inventorship from sole inventor Ioannis Pavlidis to joint inventors, Ioannis Pavlidis and James A. Levine.

Since 37 C.F.R. § 1.324 requires one or more additional statements relative to the requirements of 37 C.F.R. § 1.48(a), Applicant provides a copy of the previously filed Request and a further statement under 37 C.F.R. § 1.324(b)(2) in which the inventor, Ioannis Pavlidis, declares his agreement to the change of inventorship. The previously filed Request includes the following:

- a signed declaration by the joint inventors, Ioannis Pavlidis and James A. Levine;

- consent to the inventorship change by the current assignee evidenced by the Statement under 37 C.F.R. § 1.48(a)(5); and
- a statement that the error in inventorship arose without any deceptive intention on the part of the omitted inventor, James A. Levine.

As such, all statements and consents required under 37 C.F.R. § 1.324(b)(1) to (b)(3) are included herewith.

Applicant respectfully requests that the inventorship in the above-identified patent be changed to include the following inventors: Ioannis Pavlidis, James A. Levine.

Please charge PTO Deposit Account No. 13-4895 in the amount of \$130.00, the required fee set forth under 37 C.F.R. § 1.20(b) in accordance with 37 C.F.R. § 1.324(b)(4). Please charge any additional fees or credit any over-payment to PTO Deposit Account No. 13-4895.

The Examiner is invited to contact Applicant's Representatives at the below-listed telephone number, if they can be of any assistance during prosecution of the present application.

CERTIFICATE UNDER 37 C.F.R. 1.8:

COPY**§ 1.56 Duty to disclose information material to patentability.**

(a) A patent by its very nature is affected with a public interest. The public interest is best served, and the most effective patent examination occurs when, at the time an application is being examined, the Office is aware of and evaluates the teachings of all information material to patentability. Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in this section. The duty to disclose information exists with respect to each pending claim until the claim is cancelled or withdrawn from consideration, or the application becomes abandoned. Information material to the patentability of a claim that is cancelled or withdrawn from consideration need not be submitted if the information is not material to the patentability of any claim remaining under consideration in the application. There is no duty to submit information which is not material to the patentability of any existing claim. The duty to disclose all information known to be material to patentability is deemed to be satisfied if all information known to be material to patentability of any claim issued in a patent was cited by the Office or submitted to the Office in the manner prescribed by §§ 1.97(b)-(d) and 1.98. However, no patent will be granted on an application in connection with which fraud on the Office was practiced or attempted or the duty of disclosure was violated through bad faith or intentional misconduct. The Office encourages applicants to carefully examine:

- (1) Prior art cited in search reports of a foreign patent office in a counterpart application, and
- (2) The closest information over which individuals associated with the filing or prosecution of a patent application believe any pending claim patentably defines, to make sure that any material information contained therein is disclosed to the Office.

(b) Under this section, information is material to patentability when it is not cumulative to information already of record or being made of record in the application, and

- (1) It establishes, by itself or in combination with other information, a prima facie case of unpatentability of a claim; or
- (2) It refutes, or is inconsistent with, a position the applicant takes in:
 - (i) Opposing an argument of unpatentability relied on by the Office, or
 - (ii) Asserting an argument of patentability.

A prima facie case of unpatentability is established when the information compels a conclusion that a claim is unpatentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability.

(c) Individuals associated with the filing or prosecution of a patent application within the meaning of this section are:

- (1) Each inventor named in the application;
- (2) Each attorney or agent who prepares or prosecutes the application; and
- (3) Every other person who is substantively involved in the preparation or prosecution of the application and who is associated with the inventor, with the assignee or with anyone to whom there is an obligation to assign the application.

(d) Individuals other than the attorney, agent or inventor may comply with this section by disclosing information to the attorney, agent, or inventor.

(e) In any continuation-in-part application, the duty under this section includes the duty to disclose to the

Office all information known to the person to be material to patentability, as defined in paragraph (b) of this section, which became available between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application.
